Syllabus
Healthcare Reimbursement (H456 and S456 Honors)
Indiana University School of Public & Environmental Affairs
Fall 2015

Instructor: Mark A. Norrell, FACHE HFA
Lecturer in Healthcare Management
norrellm@indiana.edu
Office: SPEA 456
(812) 856-1392 (office)
(812) 369-9905 (cell)

Class: M W 4:00-5:15 p.m., Woodburn Hall 101

Office Hours: M W 12:30 – 2:30 p.m. (and by appointment)

Assistant: Charlie Abbott
clabbott@indiana.edu
Office: SPEA 430
(812) 855-4944

Teaching Assistant: Taylor Rowles
Email: trowles@imail.iu.edu

COURSE OBJECTIVES

• To deepen the student’s understanding of payment and financing for healthcare services under managed care arrangements, and the strength and weaknesses of its various organizational structures;
• To survey the performance of managed care organizations in the private sector;
• To provide students with the foundation needed to be knowledgeable consumers of healthcare;
• To familiarize students with contemporary management issues including capitation, risk sharing, utilization management, pharmaceutical benefit management, disease management, and behavioral health management;
• To introduce students to pressing public policy issues regarding managed care, such as patients’ rights, consumerism, physician accountability, and quality assessment and assurance.

REQUIRED TEXTBOOKS

Available for purchase ($86.00) or rental ($55.90) at the I.U. Bookstore. The textbook is also available for $85.95 through the publisher at:
http://www.jblearning.com/catalog/9781284043259/

Available for purchase through the I.U. Bookstore or at the publisher ($82.95) at:
http://www.jblearning.com/catalog/9781284026122/
A digital edition is available ($41.95) at:
http://www.jblearning.com/catalog/9781284034929/
Additional required readings will be available as class handouts or through Canvas. Please refer to the Schedule of Topics for readings.

### COURSE REQUIREMENTS AND BASIS FOR FINAL GRADE

- **Exams**

  Three exams will be given, and will comprise 60% of the final grade. Exams are *NOT EXPLICITLY* cumulative – but concepts will build upon material previously covered. Contents of the exams will be based on lectures, reading assignments and exercise assignments. The format of exams includes multiple choice and true/false questions. The quantitative nature of this course means that exams will include questions requiring basic mathematical calculations. A basic calculator is allowed during the exams. Exams *MUST* be taken during the scheduled time period. Makeup exams will be granted only in exceptional situations and *ONLY* if arranged in advance. Verification from a physician is required for absence during an exam for medical reasons.

- **Assignments**

  Assignments will comprise 15% of the final grade.

  Assignments will be discussed in class when assigned. *Assignments are not covered in the textbook. Therefore, it is essential for you to attend class in order to understand assignments.*

  Assignments are posted in Canvas with their due dates. Please turn in your assignments at the beginning of class on the due date. Give yourself plenty of time to work the assigned exercises, as they will require your analysis and are not always straightforward. *I appreciate neat, organized, grammatically correct work, as it is expected in your professional life.*

- **Attendance**

  Attendance will comprise 10% of the final grade.

  Attendance and participation at class is essential. Attendance tracking for credit will begin during the second week of the semester on *Monday, August 31, 2015.*

  A total of *two absences*, for any reason, will be permitted without deducting attendance points. Please note that Canvas is configured to automatically drop your two lowest attendance scores. Thus, you will not be penalized for your first two absences. The instructor does not evaluate if an absence is considered excusable or not.

  *It is your responsibility to sign the attendance sheet each class session.* Points are awarded simply based on the number of classes attended. Please direct questions regarding your attendance record to our Undergraduate Teaching Assistant.
• **Final Presentation**

A comprehensive team presentation related to a critical issue and/or advanced topic associated with healthcare reimbursement will comprise 15% of the final grade. You will be randomly assigned to a team of approximately five (5) students.

Grading will be based on your team’s selection of an appropriate and relevant topic, content, presentation delivery, your team’s ability to generate questions and discussion following the presentation and peer evaluation of your teamwork efforts. Your instructor will need to approve your team’s topic in advance, by a specified date listed on the schedule. Details will be provided early in the semester.

**Lecture Recordings**

Daily classroom lectures will be recorded and provided to you as a key learning resource. I use the Echo360 classroom recording system, which captures the presentation audio and video for your later review. Links to lecture recordings will be posted in Canvas, and are easily accessible. Occasionally, I have experienced technical issues outside my control which make recorded lectures inaccessible – therefore, the live lectures should be considered your primary resource.

*Please refer to the grading model and track your grades throughout the semester.*

*I utilize Canvas for grade tracking. If you notice any discrepancies, it is your responsibility to notify me.*

**Important Note:** Historically, at the end of each semester, several students ask me to adjust their final letter grade upward or “round up” to the next higher grade. Students frequently provide extensive rationale for their request(s). The guidelines shown above are thresholds that must be achieved in order to earn the indicated grade. Therefore, I will not accept requests to adjust final grades.

**GENERAL EXPECTATIONS**

1. Attendance and participation at class is essential. Experience shows that students who do not attend class regularly tend to perform poorly. If you have to miss a class, you are strongly advised to copy lecture notes from other students. Handouts will be available only on the day originally provided and may not be available on Canvas.

2. Anyone attending class is expected to conduct him or herself appropriately. Academic and personal misconduct by students in this class are defined and dealt with according to the procedures in the Code of Students Ethics. You are responsible for being familiar with this code and all other relevant SPEA and University policies.

3. In addition to attending class there is an expectation that you will spend several hours a week reading and doing assignments.

4. **Silence cell phones and electronic devices while in class.** You may use laptops for taking notes or for following lecture materials. Please restrict use of laptops and electronic devices to classroom purposes only. Browsing unrelated material during class is distracting for you and others.

5. Students needing accommodations because of disability must register with the Office of Disability Services for Students (DSS) and complete the appropriate forms issued by DSS before accommodations will be given. The DSS office may be accessed as follows: Herman B. Wells Library, Room W302, [http://studentaffairs.iub.edu/dss/](http://studentaffairs.iub.edu/dss/), (812) 855-7578.

6. Along with information given in class, OnCourse will be an important source of information for the course, including any class cancellation notices, exam date changes and clarifications concerning course expectations.

7. If you have questions about your grade, you must inquire in person or in writing.
Lecture PowerPoints will be posted on Canvas at least one week in advance. Assignments will be posted in advance under the Assignments tab.

No cumulative final examination will be given during finals week!
Perspectives from which to consider Healthcare Reimbursement

The Basics of Health Insurance
   Risk theory and insurance
   Types of insurance
   Health insurance sources
      Private/Commercial
      Public (funding)
   Indemnity health insurance
      Pure indemnity
      Modified indemnity
   Basic health plan terms
   Premium basics
   Moral hazard
   Adverse selection
   Exercise: Indemnity premiums and out-of-pocket expenses for single coverage

Private/Commercial Insurance - Basics
   Employer-based
   Premium participation
   Self-funded plans
      Stop Loss and reinsurance
      Third party administrator
      ERISA
   Usual, customary and reasonable

Public Financing Programs
   Medicare
      Eligibility
      Funding
      Spending
   Medicaid
      Example Indiana plans
   Veterans Administration
   TriCare
The Evolution of Health Insurance and Managed care

Hospitalization – Blue Cross
Physician – Blue Shield
Employer-based health insurance and the historical reasons for it
Medicare and Medicaid historic origins
Healthcare cost inflation 1965-1985
HMO Act of 1973
  Characteristics of HMOs
Prospective payment and the implementation of DRG reimbursement (1984)
  Management of hospitals in the wake of prospective payment
Examples of DRG classification and billing
Clinton era efforts at healthcare reform
Managed care, defined
The Managed Care Backlash
Employer responses to rising costs
Healthcare provider perspective and responses to managed care
The continuum of managed care development

Types of Managed Care Organizations

Preferred provider organization
  Network
  Contracts
  Discounts
  Advantages and disadvantages from each stakeholder’s perspective
Reimbursement methods
Utilization management introduction
Example PPO plans, premiums, terms, benefits
Point of service plan
Exclusive provider organization
From the insurer’s perspective
  Selection of network providers
From the provider’s perspective: To contract or not?
Rental networks
Health maintenance organizations
  Defining characteristics
  Capitation
  Models
  Gatekeeper
  Largest HMOs currently operating
Integrated delivery systems and PSOs – IPA, GPWW, PHO, MSO
Managed Care Contracts
- Contracting process
- Contract structure and contents
- Contract evaluation process
- Contract pitfalls from provider’s perspective
- Exercise: Model managed care contract and exercise in reviewing/negotiating

Hospital Reimbursement Systems
- Charge Master (CDM)
- Flowchart of hospital billing process
- Determination of payable amount
  - DRG grouper
- Electronic billing systems
- Hospital billing and collections staff
- Types of hospital reimbursement arrangements
- Calculation of DRG reimbursement
  - Base, outlier
- Calculation of other reimbursement forms
- Exercise: Model a contract proposal and make recommendations

Physician Reimbursement Systems
- By Payor
  - Fee for service
  - Fee schedule
  - Capitation
  - Hybrids
  - CPT Codes
  - Example office services
- By Group/employer
  - Incentive structures
  - Salary, percent of billings, base plus incentive
  - Dividends in a group practice

Managed Care Organizations: Internal Operations
- Functional makeup and organization
  - Network management
  - Credentialing
  - Provider relations
  - Marketing and sales
  - Member services
  - Utilization management
  - Carve-out
  - Claims administration
    - Explanation of benefits
  - Underwriting
  - Finance and Information systems
Strategies to Control Cost and Quality
  Utilization Management
  Metrics and benchmarking costs and utilization
  Benefit design to control costs
  Preventive services
  Prospective, Concurrent, Retrospective techniques

Disease Management
Worksite Wellness

Prescription Drug Benefit Management
  Costs and trends
  Pharmacy benefit manager (PBM)
  Pharmaceutical distribution and acquisition
  Formulary
  Pharmacy & Therapeutics Committee (provider and plan)
  Brand vs. generic
  Tiering
  Generic and therapeutic substitution
  e-prescribing
  Point of sale claim adjudication in pharmacy
  Rebate program
  Regulation – FDA, DEA

Managed Medicare and Medicaid
  Part C history and current
  Part D
  Medicare Advantage plans
  Payment system for Part C
  Requirements for operating a Part C plan
  Quality monitoring and reporting of Part C plans

Accountable Care Organizations and PSOs
  Market evolution and reasons
  Delivery system – market-driven reform
  Patient Centered Medical Home
  Accountable Care Organization and taking on risk
  In the Affordable Care Act
  Quality criteria

The 2010 Patient Protection and Affordable Care Act
SPEA Academic Policies

Academic Dishonesty
SPEA faculty do not tolerate cheating, plagiarism, or any other form of academic dishonesty. If you have not done so, you should read the IUB Code of Student Rights, Responsibilities, and Conduct, which can be accessed at http://www.iu.edu/~code/code/index.shtml so you will be sure to understand what these terms mean and what penalties can be issued for academic dishonesty. Academic dishonesty can result in a grade of F for the class (an F for academic dishonesty cannot be removed from the transcript). Significant violations of the Code can result in expulsion from the University.

Plagiarism is using another person’s words, ideas, artistic creations, or other intellectual property without giving proper credit. According to the Code of Student Rights, Responsibilities, and Conduct, a student must give credit to the work of another person when he/she does any of the following:

a. Quotes another person’s actual words, either oral or written;

b. Paraphrases another person’s words, either oral or written;

c. Uses another person’s idea, opinion, or theory; or

d. Borrows facts, statistics, or other illustrative material, unless the information is common knowledge.

Civility
Civility is important in an academic community to ensure that all parties—students, staff, and faculty—are working in an environment that fosters achievement of the individual’s and community’s goals and objectives. Civility requires all parties to demonstrate personal integrity and conduct themselves in a manner that shows respect, courtesy and tolerance to others. Examples of discourteous behaviors during class include reading the newspaper, listening to headphones, talking or laughing with others, chronically arriving late, and so forth. These behaviors are distracting to the instructor and classmates, and SPEA faculty will address these problems as they arise. Maintaining and fostering civility inside and outside the classroom is especially important to SPEA, which is a professional school.

Pursuant to the Indiana University Student Code of Conduct, disorderly conduct which interferes with teaching, research, administration, or other university or university-authorized activity will not be tolerated and will be immediately reported to the Office of The Dean of Students for appropriate disposition which may result in disciplinary action including possible suspension and/or expulsion from the university.

Communication between Faculty and Students
In order to verify the identity of all parties involved, effective September 1, 2004, all email communication from current SPEA students to SPEA staff must originate from an Indiana University email account. For email communication with SPEA faculty, current SPEA students should refer to course syllabi for instructors’ preferences (Oncourse, Webmail, etc.). This policy applies to current students only. Instructions for forwarding your IUB email to another account can be found at: http://kb.indiana.edu/data/beoj.html?cust=687481.87815.30

Course Withdrawals
Students who stop attending class without properly withdrawing from the class may receive a grade of F. It is important to withdraw from a course within specified timeframes (see chart below). Note that withdrawals after Week 12 of a regular session or Week 4 of a summer session are rarely granted. Poor performance in a course is not grounds for a late withdrawal.

No withdrawal forms will be processed in the Office of the Registrar after the last day of classes. Any requests for a late withdrawal after the last day of classes must go through the grade appeal process, but each student should remember that in accordance with campus policy, SPEA does not permit a student to withdraw from a course if he/she has completed the course requirements. Grade replacement should be used in this case. To withdraw, obtain a withdrawal slip (DROP/ADD Form) from the SPEA Student Services window. Instructions for completing it are given on the form.

SPEA Academic Policies (continued)
Withdrawal Deadlines

| Course deleted from record, no grade assigned, 100% refund (Advisor signature **IS NOT** required) | Week 1 (last day) |
| Withdrawal with automatic **grade of W** (Advisor signature **IS** required) | Week 2– Week 7 (regular session) Week 2 – Week 3 (summer session) |
| Withdrawal with **grade of W or F** (Advisor and instructor signatures **ARE** required) | Week 8 – Week 12 (regular session) Week 3 – Week 4 (summer session) |

**Incompletes**

A grade of incomplete (I) indicates that a ‘substantial portion’ of the work in a course has been satisfactorily but not entirely completed by the student as of the end of the semester. The incomplete can be given to a student facing a hardship such that such that it would be unjust to hold the student to the established time limits for completing the work. To be eligible for the incomplete in a SPEA course, the student’s work must be of passing quality, and the student must have completed 75% of the course requirements. Poor performance in a course **is not grounds for an incomplete.** SPEA follows the campus guidelines in awarding incompletes which may be accessed at the Office of the Registrar’s website at:

http://registrar.indiana.edu/stu_grades.shtml

Incompletes must be removed within a time period not to exceed one year after the semester in which the student was enrolled in the course. The incomplete will revert to an ‘F’ if the work is not completed within the allotted timeframe established by the instructor.

**Students Called to Active Duty**

SPEA encourages any student who is in the Indiana Military Reserves and is called to active duty to finish his/her coursework if at all possible. Students who cannot complete their courses have the option of withdrawing with 100% fee refund, but this request must be made within one week of being called to active duty. Students who are called to active duty may qualify for an incomplete (provided that all the above criteria have been met). For further information, please see the Office of the Registrar’s website at:

http://registrar.indiana.edu/stu_infopoli.shtml

**Final Exam Schedule**

If a final exam is given, it must be held on the day and time set in the final exam schedule. If an instructor has changed the final exam date, the student should first consult with the instructor. Students who have more than three final exams in one day or insufficient time to get from one exam to another should consult with their instructors to resolve these conflicts. Exams may not be given in the week before the final exam week. If a student is not able to resolve a final exam problem with the instructor, the student may report the problem to the Director of Undergraduate or Graduate programs. The final exam week schedule can be found at the Office of the Registrar’s website at:

http://registrar.indiana.edu/stu_calsche.shtml
